

WIIT: The Wide-Field Imaging Interferometry Testbed

Milestone	Target Date
1. Achieve & verify repeatability	May 2004
2. 1-D Image Reconstruction	August 2004
3. Enable full automation	August 2004
4. Define image quality	Sept 2004 and ongoing
5. Simple 2-D Image reconstruction	Dec 2004
6. Instrument model predicting realistic data	Dec 2004
7. Complex 2-D Image reconstruction using sources with both spatial and spectral structure	June 2005 and ongoing

Orion! The Interferometry movie....
